

1. RAVEN Admin Panel: <https://tinyurl.com/ravenAdmin>

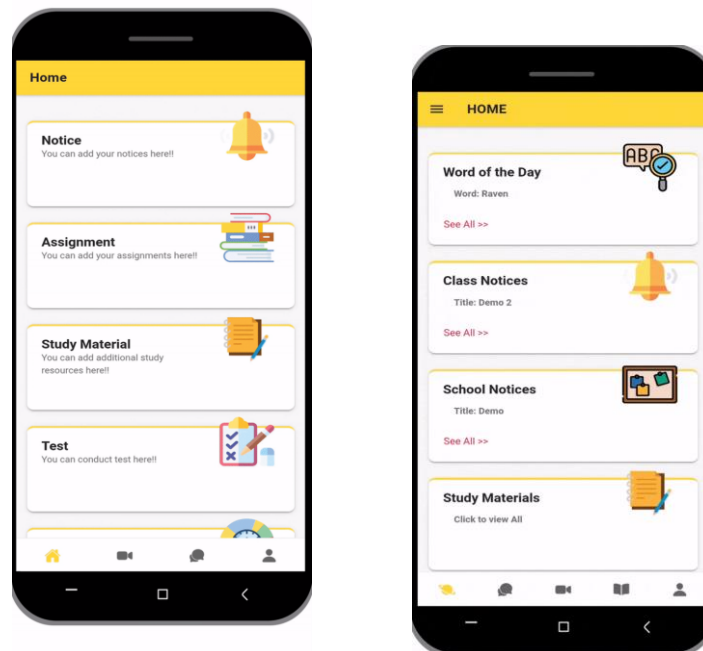

We developed a complete LMS software for schools with an Application and Admin panel integrated. Admin Panel is developed and designed in **Codeigniter framework**.

A hassle free management of the entire school can be handled by the school admin with ease.

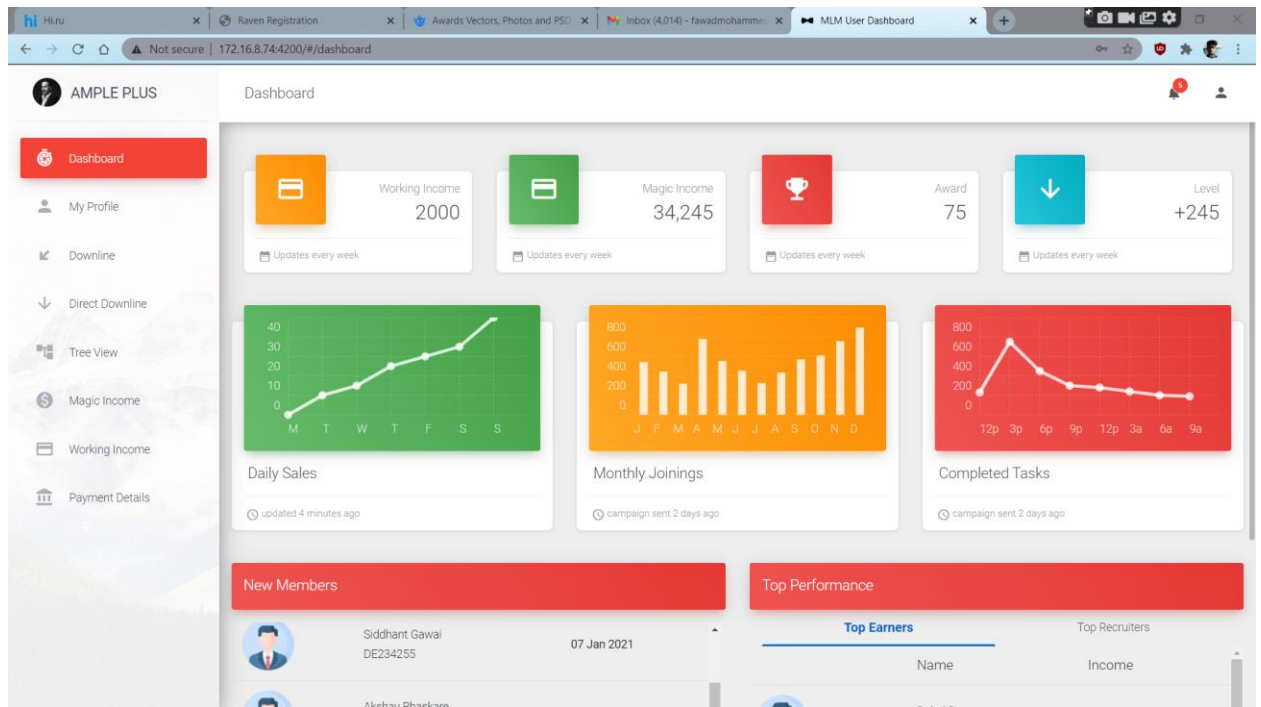

Login: demo@gmail.com Password: 12345678

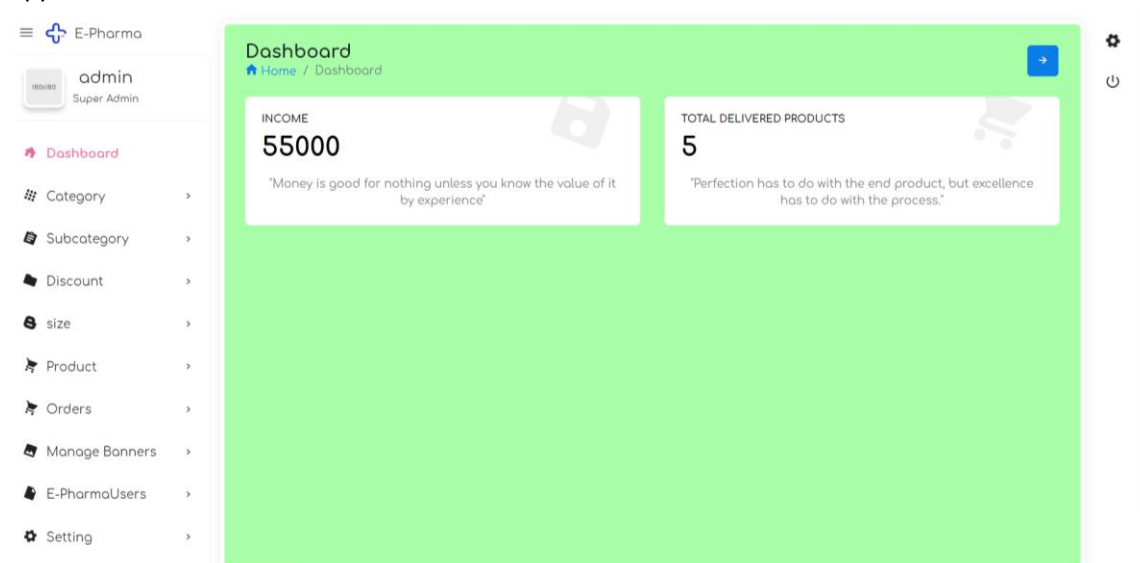

2. RAVEN App: We developed an application for students and teachers wherein teachers can execute their tasks efficiently and students can take academic benefits virtually. The app is developed in **IONIC framework**.

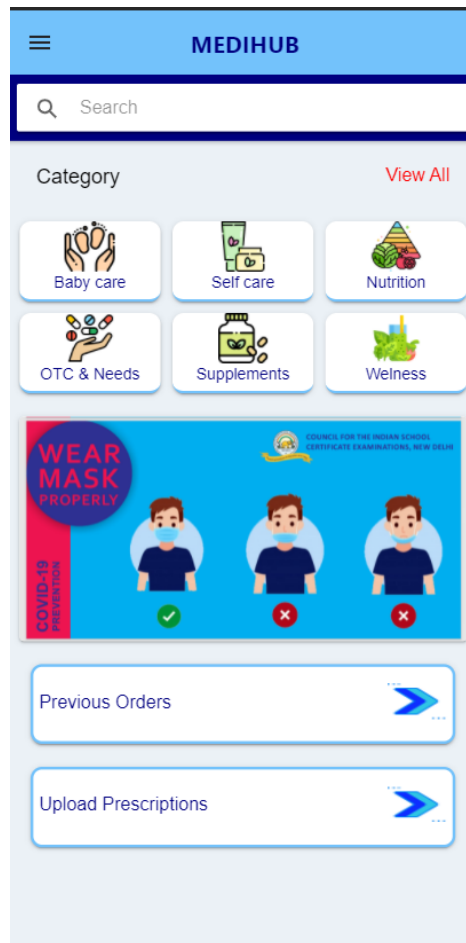

3. **Multilevel Marketing Software:** We have developed a customized multilevel marketing software according to client's requirements. The software comprises of an Admin Dashboard and User Panel. We developed the software in **Angular framework**.

Pharmacy (Admin + App): We developed an Admin Dashboard for Pharmacy in **Codeigniter** and an Application for customers in **Ionic Framework**.

Pharmacy App in Ionic

Websites:- We majorly use **HTML5, CSS3, JS, Bootstrap, PHP** in developing all websites.
